Specialist Mathematics

ISBN 978-1-921128-04-2

The **Specialist Mathematics** Units 3 and 4 Study Pack provides students with a concise and clear presentation of all the material in the Specialist Mathematics course, incorporating the latest changes, which will take effect from 2006.

- Differentiation and Rational Algebraic Functions
- Trigonometry
- Vectors
- Integral Calculus
- Mechanics
- Kinematics
- Examination Tips
- Complex Numbers
- The Ellipse and the Hyperbola
- Techniques of Integration
- Differential Equations
- Vector Calculus

This VCE Study Pack will be very useful in grasping important concepts and skills from the new Specialist Mathematics course. The student will find many detailed worked examples in each chapter to aid skill development. The organization of each chapter will assist students to compile topic summaries in preparation for examinations. Study tips and strategies to help students tackle examinations are also clearly explained.

The use of the graphics calculator is integrated into problem solving whenever applicable. Each chapter provides practice questions for which full solutions are provided. Students will find topic VCE Study Cards particularly helpful.

ABOUT THE AUTHOR

Tom Mifsud holds a *B.Sc.* from RMIT and a *B.Sc. (Hons)* from Monash University, with majors in both Pure and Applied Mathematics. Over 20 years he has had wide experience as a teacher of mathematics not only within Victoria but also interstate and internationally. He currently teaches at Luther College, Croydon where he has been a teacher of Specialist Mathematics for the past six years.

VCE STUDY CARDS

These books include 24 VCE Study Cards that will assist in the preparation for the final examinations in Mathematics. The cards, which are perforated for easy removal from the book as an added aid to study, contain summaries of key concepts studied.
