About Internal Assessment Tasks

- Each internal QAT is a written task that directly relates to specific course requirements (including outcomes, components, and task types) and is largely self-contained for immediate use with students.
- Internal QATs provide clear instructions, source material and questions to be completed together with a solution pathway to assist with marking of the task.
- Internal QATs are distributed electronically via email.

Internal assessment tasks and examinations are prepared by panels of practising teachers who are highly qualified and experienced in the setting and marking of examinations and are available in a number of HSC studies, including:
